

OUR NEW ROUGH TERRAIN E-FLEET IS HERE!

-  100% electric
-  Zero emissions
-  Minimal engine noise
-  Long battery life
-  Fast charging

ZERO EMISSIONS

Electric machines mean zero emissions, reducing your carbon footprint on site and the overall environmental impact of your projects.

ZERO COMPROMISE

Get the same high performance as conventional diesel engine machines with up to 20 continuous hours run time, minimum 30% gradeability and true 4wd performance that utilises powerful drive motors.

OUR ELECTRIC ROUGH TERRAIN RANGE

- Electric Rough Terrain Scissor Lifts
- Electric Rough Terrain Knuckle Boom Lifts
- Electric Rough Terrain Straight Boom Lifts

POWER PACKS - NEXT GENERATION POWER SOLUTIONS

Our new compact portable battery storage pods act like a power bank for your electrical equipment anywhere on site as they are easily relocatable. Guaranteeing a higher energy efficiency and optimizing emissions and site noise, their key energy saving features are:

- Zero emissions from the battery pack even when charging equipment
- Power lighting, security, tools and equipment
- Can be simply moved back to the mains power supply to recharge as required
- Ability to integrate into current site power systems including diesel generators for maximum efficiency (run the battery storage pod only overnight or on weekends)
- Directly connectable to solar panels for 100% green energy
- Single and three phase applications

OUR ROUGH TERRAIN RANGE

Electric Rough Terrain Scissor Lifts

Vital features including 4-wheel drive, self-levelling hydraulic outriggers and dual extended platform are all included.

- 32' (10m) platform height RT
- 43' (13m) platform height RT
- 47' (14m) Platform height RT
- 53' (16m) platform height RT
- 64' (20m) platform height RT

Electric Rough Terrain Knuckle Boom Lifts

All Booms are 4-wheel drive

- 60' (18m) platform height RT with 230kg basket capacity
- 73' (22m) platform height RT with 300kg basket capacity
- 87' (26m) platform height RT with 250kg basket capacity

Electric Rough Terrain Straight Boom Lifts

All Booms are 4-wheel drive

- 67' (20m) platform height RT with 454kg basket capacity
- 74' (22m) platform height RT with 454kg basket capacity
- 87' (26m) platform height RT with 454kg basket capacity
- 92' (28m) platform height RT with 454kg basket capacity

LANDING SOON

Our fleet will continue to grow with the latest technology in electric powered equipment, including:

- Fast charge battery packs
- Electric 4WD Telescopic Handlers
- Electric RT Buggy Forklift and Industrial forklifts 2.5T -7T
- Battery powered 250t Lattice Crawler Cranes
- 240v and battery Mini Crawler Cranes for indoor use
- Solar charging stations and battery storage
- Solar lighting towers

REGENERATE AUSTRALIA
PROUD SUPPORTER 2023

Choose our e-fleet & double your impact

For every e-fleet hire, we'll donate to proudly support WWF-Australia to Regenerate Australia, a bold vision to rehabilitate and restore wildlife and habitats and future-proof Australia against climate disasters.
