

# alfasi hire

Our vision is to provide our customers with equipment solutions to safely build Australia's future

## CAPABILITY STATEMENT 2022

What makes us different is the calibre of our equipment. We've sourced the most technologically advanced, powerful machinery from the world's leading manufacturers.

# about us

Alfasi Hire commenced trading in 2004 as a specialist access hire company and has continued to grow and diversify with our clients across Australia. We now have more than 3000 machines in our fleet including:

- boom and scissor lifts
- cranes
- telehandlers and forklifts
- generators and compressors
- track mounted EWP's
- lighting towers
- specialist plant

Our customers work across many industries including commercial building construction, infrastructure, mining, resources and renewable energy projects from Sydney CBD through the Bowen Basin and across to the Pilbara. Our people have the experience and expertise you need to ensure you get the best and safest equipment, arriving on time and ready to make your project a success.

# our fleet

## BOOM AND SCISSOR LIFTS

We stock Australia's widest range of EWPs from leading manufacturers including Genie, JLG, Haulotte, Nifty and Skyjack ranging from 3.6m to 56m platform height. Our extensive range can get you to almost any work location swiftly, safely and with the reliability you need to make your project a success.

This range includes:

- Electric and diesel scissor lifts up to 21m platform height
- Knuckle and straight booms up to 56m
- Track mounted booms and scissor lifts
- Outrigger (spider type) boom lifts up to 37m
- Push around and self-drive vertical lifts

## TELEHANDLERS

We have over 170 diesel telehandlers from the world's best manufacturers including JCB, Manitou and Merlo. Our telehandlers will reach up to 18m and carry from 2.5t to 13t.

These rugged and user-friendly machines have a full suite of safety features fitted to keep operators fully informed of the machines capacity limits in changing and dynamic work environments.

Features include:

- Enclosed air-conditioned cabs
- Front load and reversing cameras
- Digital dynamic load management
- External load indicator "Christmas tree"
- LED lighting and safety lockouts
- Manufacturer approved attachments such as jibs and buckets

## FORKLIFTS

Our versatile range of gas, diesel and electric forklifts from leading manufacturers such as Toyota, Nissan, Manitou and Kalmar that can lift loads of up to 16 tonne at a 600mm load centre. We have standard warehouse units as well as 2WD and 4WD Diesel RT units with and without cabins.

## CRANES

Our modern dry hire fleet is perfect for resource and infrastructure works and ensures our clients can better manage their works schedule and reduce costs. Our cranes have a capacity of up to 300t and models include:

- Terex articulated Franna cranes up to 25t
- Tadano rough terrain cranes up to 90t
- Liebherr lattice crawler cranes with a capacity of up to 300t and 86m of main boom. We also have fixed and luffing fly on most models

- Sennebogen and Liebherr telescopic crawler cranes up to 100t
- Maeda mini-crawler cranes up to 6t capacity

Our cranes have enhanced safety features such as handrails to all access and work areas, digital load management, load cameras and fire suppression as required. Every unit has a current CraneSafe, full maintenance history, rope certifications and NDT test reports.

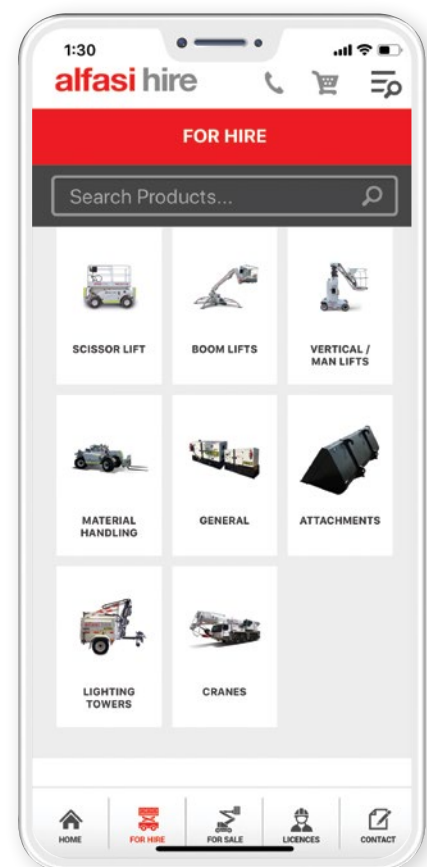

## GENERAL EQUIPMENT

Did you know Alfasi offers project wide solutions? Talk to us about our range of equipment including:

- Diesel LED and solar powered lighting towers
- Diesel generators and welders
- Compressors
- Trucks and site vehicles
- Site accommodation and storage
- Specialist equipment and one-off items

# key technical and mechanical offerings

- **Fully digitalised and tech driven operation** including: telematics technology throughout fleet, digital customer dashboard to provide live reporting. Smart phone app to order machines, machine GPS tracking, machine QR code to link to technical data sheet and safety features, SMS notifications.
- **Our equipment has enhanced safety features** to meet resource, infrastructure and rail technical plus mechanical specifications.
- **Manned Mobile Compound** deployed to your site in order to provide instant attendance to project requirements (subject to equipment quantities).
- **Full time on-site customer service representative** overseeing: Delivery coordination, pass in documentation, QA, Planning and Plant Safety.
- **Project Solutions** tailored logistics and cost savings programs for projects including transport analysis, crane lift studies, erection methodologies and plant engineering coordination.
- **Procurement solutions** including; Rent to Buy, Buy Back and plant procurement dedicated to your project.
- **Training and Safety Auditing** on site – utilising our dedicated safety specialists in order to create safer construction sites and operate plant using our ISO accredited Safety Management and Training Program.

# key social impact

## **Indigenous Participation Plan**

A foundational plan structured according to the three broad pillars of reconciliation – Relationships, Respect and Opportunities.

## **Disability & Veterans Employment Program**

Partnering with Australian Network on Disabilities, National Disability Services and Soldier On for both candidate attraction and staff upskilling to remove bias.

## **Gender & LGBTQI Equality Program**

Applying an unbiased and gender neutral view to all employment and internal staff promotional opportunities. External partnerships include ACON & Work180.

## **Personal Wellbeing Program**

Providing mental health, counselling, return to work and crisis support for all staff.

## **Community Care Program**

Providing voluntary support to social impact groups and non-profit organisations such as The Nappy Collective and Eat Up.

## **Cultural Diversity Program**

Providing sponsored employment to people from all over the world as they pursue permanent residency and citizenship.

# value added performance

## PROJECT COMPLIANCE

With our depth of experience working with many different head contractors throughout Australia, our equipment preparation and the completion of site compliance paperwork is second to none. We have a Major Project Compliance division in every state that tailor an equipment management plan to suit your project requirements, we will manage:

- Completion of pre-inspection equipment checklists including photos and comments
- Evaluation and fitting of additional compliance items prior to arrival
- Uploading of plant induction paperwork (including service history, risk assessments and other items as required) to manage the on-boarding process
- Management of pass-in process to site
- Development and distribution of site specific SWMS and Risk Assessments

- All on-boarding paperwork for our own support staff and vehicles
- Remote machine telematics used to program preventative maintenance and servicing
- Control of contractors and logistics

## PROJECT SOLUTIONS

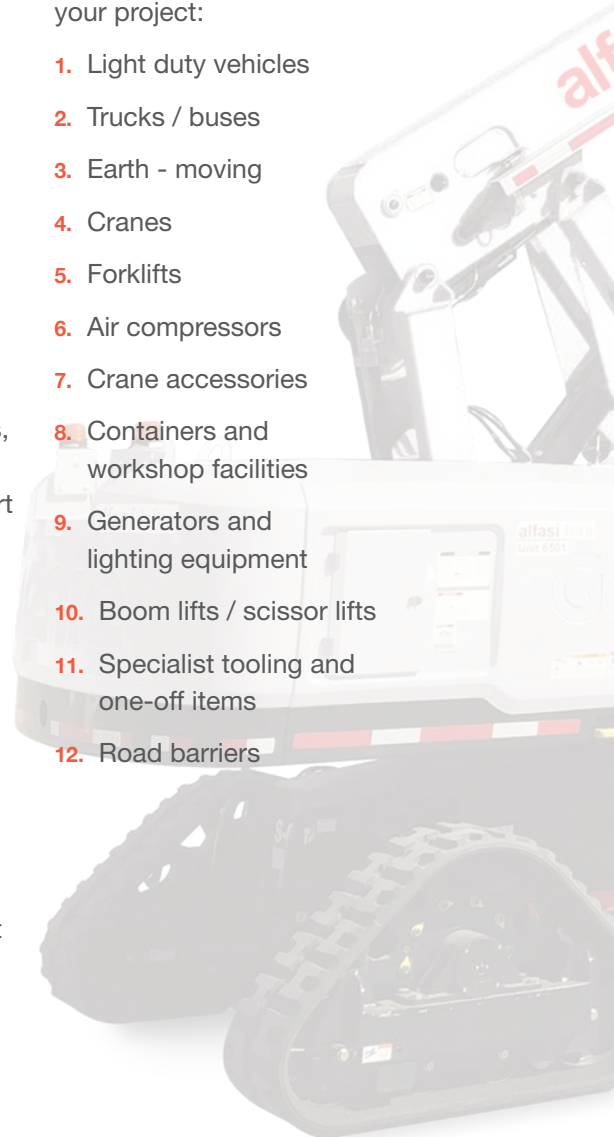

Alfasi Hire offers a project-wide equipment management service anywhere across Australia. This includes plant selection, procurement, logistics, preparation for site, ongoing service and maintenance support and demobilisation. This could involve a mix of hire, purchase, lease, rent to own or sell and buy-back options.

Alfasi Hire has refined our ability to deliver a total project solution for a full range of equipment requirements for any resource or infrastructure project across Australia. Your package can be customised to meet your project requirements, from the supply of cranes and EWPs to our

dedicated team managing all hire (plant and equipment), logistics and maintenance.

We are able to supply the following categories for your project:

1. Light duty vehicles
2. Trucks / buses
3. Earth - moving
4. Cranes
5. Forklifts
6. Air compressors
7. Crane accessories
8. Containers and workshop facilities
9. Generators and lighting equipment
10. Boom lifts / scissor lifts
11. Specialist tooling and one-off items
12. Road barriers

## EARLY WORKS

Our experienced team will help you with establishing project equipment lists, securing the correct products and ensuring they arrive to site on time and with the exact specifications.

## EQUIPMENT SPECIFICATION

Alfasi Hire is committed to the safety of your staff. Our equipment safety features include:

- Fire extinguishers
- High vis tape and call up numbers
- Secondary guarding and proximity warning devices
- Basket mesh (boom lifts) and hydraulic burst protection
- Lockable isolators and wiring protection
- On-board generator

## CRANES DIVISION

Alfasi Hire has a dedicated team of crane experts that can help determine the correct equipment and then supply and manage your project's dry hire equipment needs. This includes:

- Lift plan studies to establish the right cranes required the optimal configuration
- Management of transport to meet all NHVR regulations
- Assembly and commissioning
- Lift studies and managing relocating cranes around the project
- Dismantle and return transport

## SALES AND PURCHASING OF EQUIPMENT

Don't want to hire? We can also offer expert advice on any equipment solution including

- Purchase of new machines
- Sale of ex rental and used equipment
- Rent to buy
- Lease
- Purchase and buy-back
- Finance
- Capital sales management processes
- Trade-in

---

# health, safety, environment and accreditation

## OCCUPATIONAL HEALTH & SAFETY

Alfasi Hire develops, reviews, records and regularly updates our OH&S plan to ensure the wellbeing and safety of our own staff as well as our client's employees and suppliers.

Processes include

- Induction and ongoing training
- Regular tool boxes and pre-start meeting
- Branch safety committees
- SWMS, procedures, risk assessments and SDS available for all tasks

Signing on to project safety protocols or working under our own OH&S plans ensures our

site staff maintain a high level of situational awareness that leads to:

- Decreased risk of work related injury
- Reduced lost time
- Meaningful contribution to project safety systems
- Reduced overheads due to cost savings in insurance
- A more productive and safer working environment
- Reduce loss of time over safety issues
- Increased productivity through a safer work place.

## SUSTAINABILITY

Alfasi Hire considers the completion of a project with minimal environmental harm to be of overriding importance and is committed to environmental sustainability.

Continual improvement through risk identification, assessment and control is a key element in our environmental performance and commitment to sustainability.

To assist us in achieving our environmental objectives the following principals will be followed:

- Communication to all our personnel, contractors etc. through site inductions, education and training.
- Encourage good environmental behaviour and practices including respect for cultural and community values.

## QUALITY ASSURANCE

- Promote conservative use of energy, water, fuels etc.
- Strive to reduce amounts of waste by means of recycling of materials in all sectors of our business.
- Periodically review our workplace with inspections, both internal and external.

Should Alfasi Hire become involved in a project requiring special consideration or treatment, a comprehensive Environment Management Plan (EMP) will be prepared to suit the project requirement.

We enhance customer satisfaction by continually improving processes, products and services to ensure they consistently meet or exceed project requirements and industry standards.

The Alfasi Hire objectives of this policy include:

- Achieve high standards of technical competence and professionalism
- Provide high quality products and services that satisfies customer needs
- Conduct our business in compliance with relevant laws, regulations, industry standards and codes of practice
- Maintain an effective quality management system which satisfies the requirements of AS/NZS ISO 9001:2015 and AS/NZS 4801:2001

Every manager is responsible for making the quality policy known within his own department and drawing up objectives for quality enhancing measures which are regularly audited and renewed.

This policy is representative of the overall commitment Alfasi has to maintaining, and striving to improve, our quality of product and services.
