TELESCOPIC BOOM LIFT

alfasi hire

QUESTIONS TO ASK

- · What are the ground conditions in the work area?
- What are the site conditions travelling around the site?
- . What is the working height needed for the job?
- What is the outreach required for the job?
- Do you need an extension lead outlet in the platform?
- · Will an inbuilt Miller 5.5kVA generator make the job easier?

KEY SELLING POINTS

- Smooth control, proportional hydraulic 4 wheel drive, with two speed ranges
- Proportional lift and swing controls at the platform for fast functionality
- Oscillating front steer axle with the boom lowered in the travel position, assists 4 wheel drive traction
- · Extending axles and 4 wheel steer, and crab steer
- · Jib boom and basket rotate
- · Jib PLUS feature allows jib rotation each side of centre line
- · Cylinder boots protect cylinder rods from overspray and contaminants
- Large lug pattern urethane filled tyres
- . Multi axis 5 x 5 degree level sensor
- Plug in JLG analyser at platform and base to indicate system functions for servicing and adjustment
- Deutz Engine TD2011 L04 turbo. High speed, 4 cylinder, liquid (oil cooled) engine with pre-glow and post-glow feature reduces emissions
